RC-3TBU

3−Button Remote Control Panel with USB

The RC−3TBU remotely replicates the buttons of the SL−14RC/SL−14RCN master room controller.

FEATURES

- **K-NET™ Control Channel** - For connecting individual and daisy−chaining multiple panels.
- **Configurable Button Assignments** - Via USB connector and application software.
- **Size** - Long insert, installs inside TBUS−10, K−POD301, TBUS frame T1AF−14L or WP−3TB.

RC-3TBU
